Tips for Hanging Banners

*Note: Depending on the building where your banner is to be displayed, you may need your own supplies including a ladder and rope/string. Due to liability reasons, Virginia Tech will not supply a ladder.*

**All hangings should be knotted and tied securely**

**DERRING:** The event sponsor may hang the banner on the balcony facing the Commuter Lot and Prices Fork Road or on the opposite side facing Pamplin. Collectively, there are a total of 12 banner spaces with good viewing area. The easiest way to display the banner is to take the stairs to either the 2nd or 3rd floor landing and tie the banner to the railings that border the building. The event sponsor will need to supply their own rope to secure the banner to the railing.

**LITTON REAVES:** Banners are displayed from the covered entrance of the building. There is no access to this location from inside of the building. To display the banner from Litton Reaves, the event sponsor will need to bring a ladder, two individuals and approximately 6 ft. of string. The banner must be hung outside with a ladder (one person should hold the ladder while the other hangs the banner). On top of the covered entrance, there are cinderblocks holding metal poles. Tie the banner to the length of the metal pole. Litton Reaves can accommodate two banners at a time. For more information on ladder safety please refer to the EHSS website http://www.ehss.vt.edu/programs/LAD_program_online.php.

**WAR MEMORIAL:** The event sponsor will need to go to the third floor of War Memorial to hang the banner outside of the window. Approximately 6 ft. of rope/string is needed. War Memorial can accommodate two banners at a time; one on either side of the building.
